

March 14<sup>th</sup>, 2020

We have been given a Memorandum from the Chief Medical Officer of Health for Ontario:

For the safety of vulnerable Residents, we are to only allow visitors for any Resident who is very ill or dying. **All other non-essential visitation will not be allowed in the home at this time until we receive further direction from the Ministry of Health.**

This means that the Community, including Long Term Care, and the Retirement Suites **is now closed to visitors.**

If any resident is very ill or dying, we will contact you and arrange for your visitation. You will still need to have screening done prior to your visit.

The safety and well-being of our vulnerable population is a top priority. The home will endeavor to keep you updated regularly about the residents.

Please check out website [www.parkwoodmh.com](http://www.parkwoodmh.com) often for ongoing information about this pandemic related to Covid-19.

Thank-you
